Alumil FRAM

For the assembling, a crimping machine with crimping corners EX-113 is required.

For partners who do not use a crimping machine, assembling is achieved with **casted corners with a pin**, by using a **hand press which will be available by late June (EX-8006720000)**.

In addition, with the existing **punching machines EX-800-01-650-00 or EX-800-11-501-00**, it is possible to perform processing such as whip wholes for water drainage, cremone handles and sash rod treatments.

CERTIFICATES

	Air permeability EN 1026, EN 12207	CLASS 4
	Watertightness EN 1027, EN 12208	CLASS E900, E 1 200
	Resistance to wind load EN 12210, EN 12211	CLASS C4/B4
	Burglar resistance EN 1627-1630	RC2
	Thermal Insulation EN 10077-2	U_f from 1,5 to 2,6 W/m ² K
